

# Ghostland Songs

MUSIC • ART • FILM

## AN INVITATION

We'd like to invite you to participate in an exciting music, art and film project being put together by [ElectricGhost](#) along with [Big Blue Music](#) and [BoHo Films](#).

[Ghostland Songs](#) will be an album of 10-12 songs by artists who have appeared in [ElectricGhost](#) or who are likely to in the future. The songs would be covers chosen by those artists.

[Ghostland Songs](#) will also include interviews with the artists, documentation of the recording process and experimental film content that can be developed in conjunction with the artists; creating interesting, engaging and original material to be viewed alongside the album and artwork and acting as promotional material for [Ghostland Songs](#) and the artists involved. More information on the next page... ►

## THE GHOSTLAND NOTION

**Ghostland Songs** is about bringing artists and musicians who have a common ground together. It is collaborative and reflects the integrity of artists working within this genre and present both new and established artists.

## COVERING THE MUSIC

One of the core aspects of **Ghostland Songs** is cover songs, allowing the opportunity to creatively interpret the work of an artist who you particularly like, or who you feel has in some way influenced your own work. We will put you in the studio, for a day, to record your track. You can start this process by suggesting to us three choices of songs.

## UNIQUE TO GHOSTLAND SONGS

You may have already produced one or more cover songs. We are asking you to choose something unique for **Ghostland Songs**.

## PLAY TOGETHER

Importantly, the essence of **Ghostland Songs** is the spirit of collaboration, and we will all work together to create something unique. We are keen for artists to work with other artists - to guest on each other's work. In so doing, the project will inspire interesting, surprising and unique fusions of ideas and sounds. If you have someone that you would especially like to work and record with, please let us know. Where we can, we will help to bring about any collaborations.

## LETS HEAR FROM YOU NOW

Get in touch telling us why you'd like to get involved. Suggest three possibilities for the song you like to cover, and your thoughts on your guest artist/artists.

### Please email Lee with the following:

- Up to three songs you'd consider covering.
  - Suggest a guest/guests to sing/play with you.

### ElectricGhost – The Free Monthly Music e-Journal

Into its third year of publishing **ElectricGhost** goes from strength to strength. As a PDF publication we have all the typographic, visual quality and design sophistication of a print publication along with the interactive dynamics of an online publication. A unique hybrid.

We have created an **ElectricGhost** music genre which is a mix of American and English Roots Music; Alternative Rock, Folk and Blues plus Songwriters. We give equal weight to emerging and established musicians.

### Ghostland Songs – A new collaboration for a new decade

**Ghostland Songs** has sprung from an exciting and evolving collaboration involving **Electric Ghost**, **Big Blue Music** and **BoHo Films**.

We are very excited about the possibilities and look forward to many of you joining us in this creative adventure.
